SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Random Inmate/Resident/Detainee Interviews	

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	10
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	The auditor was provided a copy of the resident list prior to the onsite portion of the audit and during the onsite portion of the audit. The auditor reviewed the current population and randomly selected based on age, race, and length of stay.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	The interviewed residents were randomly selected, and the auditor identified residents of various races and ages.
Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	1
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Based upon documentation review, discussion with staff, and interviews with residents there was no further determination that there was a resident identified in the targeted category.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.

Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	Randomly selected prior residents and requested all documents on interviewed residents.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

	<p>Auditor Discussion</p> <p>Connecticut Renaissance</p> <p>Our Community Release Programs serve clients referred by the State of Connecticut Department of Correction. In these programs, clients are afforded the opportunity to work on overcoming barriers to successful reentry into the community.</p> <p>The Community Release Programs are provided at three locations located in Waterbury and Bridgeport, serving male clients referred by the Connecticut Department of Correction. Goals of the programs are to offer residents the opportunity to learn how to overcome barriers to reentry, establish vocational and educational skills, support systems and independent living skills</p> <p>The program begins with an orientation phase which will assist residents with adjusting to the facility, staff members, other residents, structure of the program and to establish a personalized re entry plan that includes measurable criteria of accomplishments and a specific time table for achieving them. It is the philosophy of the program that discharge begins at admission. During this time, residents will meet with the Unit Job Developer for assessment and support in obtaining and retaining employment. Residents will also be introduced to the Evidence Based Model Life after Incarceration. The program is geared toward assisting clients in recognizing and addressing barriers to successful reintegration. Through one on one Case Management residents are encouraged to address their mental health, medical and substance abuse issues. Case Managers aid residents in accessing resources for vocational/educational opportunities, individual and group therapy, 12 step self-help programs, family reunification and legal issues.</p> <p>Length of Stay is approximately 90-120 days.</p> <p>Once a resident is employed, the Case Manager will work with him to learn budgeting and financial literacy. It is the goal of this phase to focus on discharge planning. Completion of the program is based on the client's participation level, employment, securing of appropriate residence, aftercare planning and legal status.</p> <p>Residents are under the supervision of a house Parole Officer. Interviews

PREA Coordinator – The interviewed staff reported that they have sufficient time to manage all of the PREA related responsibilities. As the PREA Coordinator, I oversee the agency's PREA response and I am the agency's main point of contact for PREA. My efforts include, but are not limited to: taking PREA reports, monitoring and updating PREA policies and written materials, providing PREA training and guidance, handling administrative investigations, answering questions about PREA and CT (Connecticut) Renaissance's PREA response, and generally reinforcing the agency's zero tolerance policy and client safety. I provide PREA training monthly to new hires, monitor PREA documentation in our programs, and ensure PREA compliance. If an issue is identified with complying with a PREA standard, I first seek more information by reviewing the standard. I then consider what agency policies and practices are in place to meet the standard and what is at the root of the compliance issue. I consider if there is a need to change policy or practice or if there are any program- or facility-specific issues that may be contributing factors (physical premises, staffing, technology, etc.). Once determining the issue, I take appropriate action, such as modifying policy, providing education, and collaborating with staff at all levels. If this involves incidents of abuse or sexual harassment, I would follow my duty to investigate and report.

Discussion: A review of the appropriate documentation, interviews with staff, and review of relevant policies indicate that the facility is in compliance with the provisions of this standard.

115.211(b). As reported in the PAQ, the agency employs or designates an upper-level, agency-side PREA coordinator. It was further reported that the PREA Coordinator has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its community confinement facilities. The position of the PREA Coordinator is the Clinical Performance and Outcomes Director.

Policy: Prison Rape Elimination Act (PREA) Policy states that "CT Renaissance shall employ or designate an upper-level, agency-wide PREA Coordinator. The PREA Coordinator will be responsible for implementing and overseeing the agency's efforts to comply with policies and procedures related to PREA standards. The PREA Coordinator is also responsible for

initiating internal administrative investigations for allegations of sexual harassment, administrative reviews of all reported incidents, maintaining documentation, writing reports, presenting findings and ensuring appropriate referrals are made" (p. 1).

Findings from any incident reviews are incorporated into the plan with respect to addressing factors that may contribute to PREA incidents including accounting for staff's ability to appropriately monitor residents throughout the facility. The staffing plan is kept in a binder on site. In addition, by contract, our Maple Street Work Release facility must ensure certain staffing levels, so there are no deviations of the staffing plan reported. Our location is adequately monitored by video surveillance which has the ability to play back videos. At least once a year, assessments of video monitoring needs are conducted including analyzing the number of cameras, the placement, and</p>

monitoring/dependability of systems. In addition to the annual update of the facility staffing plan, any changes that may be needed throughout the year are overseen by the PREA Coordinator, in consultation with the Director of Work Release and Facility Director.

Discussion: A review of the appropriate documentation, interviews with staff, and review of relevant policies indicate that the facility is in compliance with the provisions of this standard.

115.213(b). N/A-As reported in the PAQ, there were no deviations in the staffing plan.

Policy: The Supervision and Monitoring-Staff Policy states that "each facility shall maintain a staffing plan based upon the determined staffing needs required to ensure a safe environment that is properly monitored and supervised. The plan will be maintained by the Program Director. Any deviations from the staff schedule or staffing plan shall be documented. This includes documentation of changes in personnel coverage, changes in assigned time frames and/changes in the required staffing pattern. Communication of staff changes will be made via email, in the staff communication log as well as posting in the "counselor-on-duty" office." (p. 1).

Interviews

Director or Designee – The interviewed director reported that while there has been no incidents of non-compliance, such incidents would be documented in the facility log book and would be addressed by the program director.

Discussion: A review of the appropriate documentation, interviews with staff, and review of relevant policies indicate that the facility is in compliance with the provisions of this standard.

115.213(c). As reported in the PAQ, at least once every year the facility, reviews the staffing plan to see whether adjustments are needed in (1) the staffing plan, (2) prevailing staffing patterns, (3) the deployment of video monitoring systems and other monitoring technologies, or (4) the allocation of facility/agency resources to commit to the staffing plan to ensure compliance with the staffing plan.

Policy: The Supervision and Monitoring-Staff Policy states that "whenever necessary, but no less frequently than once each year, Connecticut Renaissance shall assess for each Residential Drug Treatment and Community Work Release facility staffing patterns and determine if any adjustments need to be made. The assessment of the staffing plan will be documented. The assessment will be used to identify adjustments that need to be made to ensure sexual safety of residents and protection from retaliation if reports are received or an investigation conducted" (p. 1).

The policy further states that "the use of Video Monitoring Systems may be utilized to enhance supervision and monitoring of the residents and the facilities. Assessment of video monitoring needs shall also take place at least annually or more frequently as needs arise. One resident further stated that they make announcements a majority of the time and one resident stated that sometimes they walk in to fast after the announcements. All of the interviewed residents reported that they are never naked in full view of opposite gender staff.

Discussion: A review of the appropriate documentation, interviews with staff, and review of relevant policies indicate that the facility is in compliance with the provisions of this standard.

115.215 (d). As reported in the PAQ, the facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

Policy: The Searches Facility and Person Policy states that “all agency staff is prohibited from viewing residents while dressing, showering or performing bodily functions. Searches of a client's belongings shall be conducted upon admission, discharge, upon return to facility after a community activity and when additional personal belongings enter the facility” (p. 1).

The policy further states that “The following guidelines shall be adhered to when searching a particular client's room: a. Respect the client's property rights, taking care not to break or otherwise harm their property. b. Do not disrupt the room any more than necessary. Avoid unnecessarily embarrassing the client or ridiculing them in the process of the search. c. Do not use any force. d. Opposite gender staff will announce themselves prior to entering a resident's room or bathroom” (p. 2).

Corrective Action: During the site inspection, the auditor observed that the shower curtain did not allow for the facility staff to observe if more than one person was in the shower. The agency reported that the problem was identified earlier this year and addressed with the staff. The auditor was able to review the prior and current residents to see the improvement in documentation.

Discussion: A review of the appropriate documentation, interviews with staff, and review of relevant policies indicate that the facility is in compliance with the provisions of this standard.

115.241 (g). As reported in the PAQ, the policy requires that a resident's risk level be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness.

Interviews

Director or Designee – The interviewed director reported that they would assess, and the review team would assess for policy, procedure, or practice changes. The review team considers all of the above requirements.

PREA Coordinator – The interviewed staff reported that if a facility conducts an incident review the report would be sent to me. No incidents were reported. The PREA Coordinator is involved both in the development of the report, and in ensuring that recommendations are implemented and followed, be it changes to facility, policy and procedure, education or other areas. The agency’s quality and safety processes also ensure that such changes are successfully implemented and maintained. It was further reported that while the facility does not house clients who are 18 or under, if an allegation was made by an individual 18 or under or by someone considered a vulnerable adult, the facility would report to the PREA Coordinator, and the agency would follow the state mandated reporting laws.

Incident Review Team – The interviewed staff reported that Incident Reviews are completed and documented 30 days following an incident or alleged incident. During each incident review, the team considers when the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. During the investigation as well as during the review of the incident, the area in the facility where the incident allegedly occurred is assessed to determine whether any barriers in the facility could potentially enable abuse. Should this be true, steps would be taken to increase monitoring and/or eliminate the physical barriers. Staffing levels are always assessed during incident reviews. The technology monitoring at our facility is assessed during investigation and discussed during incident reviews. Our East site is equipped with video surveillance which has the ability to play back videos. We analyze the monitoring abilities/ needs and deploying, or augmenting will occur should it be deemed necessary to supplement supervision by staff.
